

IGBC WORKSHOP

30TH September 2015

HOD Prof.R.G.Savant, principal dr. v.r. ghorpade

The Pune chapter of Indian Green Buildings Council (IGBC), which is the green rating agency of the Confederation of Indian Industries (CII), has started the student chapter in D.Y.Patil College of Engg. And Tech. Department of Architecture.

MOC by Prof. Seema Patil

Inauguration of seminar by watering the plant

A green building is one which uses less water, optimizes energy efficiency, conserves natural resources, generates less waste and provides healthier spaces for occupants, as compared to a conventional building. The residential building sector is one of the largest consumers of electricity in India. Continuous urbanization and the growth of population result in increasing power consumption in buildings. Indian Green Building Council (IGBC) has licensed the Leadership in Energy and Environmental Design (LEED) Green Building Standard from the U.S. Green Building Council and is responsible for certifying LEED-New Construction and LEED-Core and Shell buildings in India.

Felicitation of guests

Prof. Neela Jiege introducing the guests
