Brief description of the activity

A seminar was conducted by **Ar. Nadaf Sir** for the first-year architecture students in the Seminar Hall. He explained in detail the **importance of material selection, spatial planning, and views** to be considered while designing residential spaces.

The session covered crucial aspects of different areas in a house, including the **living room, bedroom, toilet system, and studio space**. He discussed how the choice of materials affects the aesthetics, durability, comfort, and overall functionality of these spaces. Students also learned how natural light, ventilation, views, and circulation patterns influence the design of each room.

The seminar provided students with a fundamental understanding of designing user-friendly and responsive residential environments.

Seminar Outcomes

- Students understood the importance of **material selection** and its impact on function and aesthetics.
- They learned the key **design considerations for living rooms**, including orientation, views, and furniture layout.
- Students gained clarity on **toilet system planning**, privacy considerations, and efficient placement.
- They studied essential aspects of **bedroom design**, such as comfort, ventilation, and storage planning.
- Students recognized the necessity of including a **studio space**, especially for creative work and personal productivity.
- They developed a better understanding of how **views, natural light, and site surroundings** influence residential design.
- The seminar strengthened their foundational knowledge of **residential architecture and space organization**.
