Brief description of the activity

As part of the Landscape Architecture curriculum, students visited Nilkantha Garden, a well-maintained private botanical space located in Warnanagar. The garden features a rich variety of ornamental and native plants, water features, and a thoughtful layout showcasing various landscape elements and design techniques.

Outcome of the activity

- Students observed the integration of hardscape and softscape elements in a functional garden setting.
- Learnt about plant selection suitable to local climate and soil conditions.
- Understood maintenance techniques, irrigation systems, and zoning in garden design.
- Students sketched garden layouts and plant species to enhance observational skills.
