Brief description of the activity

A Seminar was organised on the occasion of World Architecture Day presented by Ar.Pramod Chaugule. The topic was based on Empowering the next generation in participatory urban design. This was an open platform for students studying from second to fourth year.

World Architecture Day was celebrated to honor and promote the contributions of architecture to society & typically focused on themes related to the profession, addressing issues, trends, and innovations in architecture.

Outcome of the activity

Students gained a deeper appreciation for the role architecture plays in shaping societies, cities, and cultures. It was inspiring and educational, providing students with invaluable insights into the world of architecture and its future directions. Covered various aspects of architecture, including design principles, urban planning, sustainability, and technological innovation, broadening students' understanding of the field.
